Swiss Engineering

Our products have Swiss roots and are manufactured in Switzerland! Together with renowned product designers and based on the experiences and needs of users, we develop innovative surgical and examination lights. Among other things, we are a member of the Swiss Medical Engineering industry association.

Quality is our top priority: From material selection to assembly, all our lights undergo our TÜV-certified quality management.

Surgical lights

Medical surgical lights from Derungs, in accordance with IEC 60601-1, offer the best lighting conditions for focussed examinations and fatigue-free working – from emergency care to minor surgical procedures. Reliable positioning, ideal illumination depth, and optimum contrast vision are, a matter of course.

Surgery lights

Technical data	TRIANGO 130	TRIANGO 100	TRIANGO 80	TRIANGO 60
